## ABOUT ME

### Student of Computer Science passionate about developing solutions

Innovative and effective through programming and engineering. My goal is to contribute positively to the teams I collaborate with by providing technological solutions tailored to their specific needs. Always in search of new opportunities and knowledge in the dynamic world of programming, I strive to stay at the forefront of the field and add value to every project.

## PROFESSIONAL EXPERIENCE

### 1 SUPPORT IT - FRONTEND DEVELOPER | ENE. 2023 - CURRENTLY

FAST INTERNATIONAL CARGO, BOGOTÁ D.C

Provided technical support for the existing website, correcting deployment errors and improving its functionality using programming languages such as HTML, CSS, and JavaScript. Created and designed a new website, ensuring an optimized user experience and an attractive design, applying the same technologies.

### 2 SUPPORT IT - JUNIOR FULLSTACK DEVELOPER | JUN. 2023 -- CURRENTLY

CESER S.A.S. BOGOTÁ D.C

During my professional experience, I have managed and optimized SQL databases to ensure efficient storage and access to information. Additionally, I have provided continuous technical support for web applications developed with programming languages such as PHP, HTML, CSS, and JavaScript, ensuring their proper functionality and performance.
